**Job/Person Summary**

We require an LSA to work as part of Southampton Children’s Hospital School in Bursledon House and on the general children’s wards. This post will involve supporting teachers and students on the hospital wards, either on a 1:1 basis or in small groups within the classroom.

The applicant will need to be flexible and be prepared to work with pupils across all primary and secondary age ranges.

Previous experience across these age ranges is not essential but the professional willingness and flexibility is.

Our school is focused on enabling pupils with medical needs to access education and we are organised into three key areas to accomplish this: the General Hospital Wards, Bursledon House Residential Unit & our Medical Outreach Provision. Across our service, we offer a broad and balanced curriculum to meet the individual needs of each pupil. Every child will benefit from quality educational time both on a one to one and small group basis. We also liaise with mainstream schools to gather information enabling us to provide continuity for each child’s study programme.

We offer:

- Collaborative work assisting the therapeutic process for children with medical needs
- A unique environment in which to work
- A caring supportive environment despite the unique challenges
- Close home school integration
- Professional development opportunities as part of Jefferys Education Trust and Hamwic Teaching School Alliance.
